THE J2 WAY

Clothesline Fresh products can be used by anyone who desires quality, environmentally-preferable laundry products that excel in most types of water conditions. Clothesline Fresh products contain award-winning green surfactant technology and biodegradable water softeners not found in competitor formulations.

Contemporary Cleaning Technology

Spartan's Clothesline Fresh laundry line contains the latest in laundry technology, which allows for superior cleaning performance at a lower cost! This technology is also more environmentally-preferable than most traditional products.

Responsible Chemistry

- No or low VOCs
- No phosphates, silicates, or harsh solvents
- No alkylphenol ethoxylates
- No nitrilotriacetic acid (NTA)
- No toxic or persistent components or by-products
- No ozone-depleting chemicals

High-Efficiency Formulations

Clothesline Fresh products are high-efficiency formulations and area ideal for use in conjunction with other smart environmental choices, including:

- Use high-efficiency equipment
- Automatic dispensing
- Decreased wash cycle time
- Increase use of ozone injection systems

Combine these sustainable choices with other smart laundry practices, such as:

- Proper collection and handling
- Sorting
- Pre-spotting
- Tailored chemical usage

Sustainable Support Characteristics

- Safer Choice Certified
- All surfactants used in Clothesline Fresh products are on the EPA's CleanGredients® list
- Readily-biodegradable
- Bio-based surfactants are used whenever possible and when petroleum-derived surfactants are used; they are readily-biodegradable as well
- Bio-based surfactants are derived from soy, corn, and coconut oil
- Polymeric chelant and anti-encrustation aide entirely derived from chicory root
- Natural bio-based acids as neutralization aides (citric acid)
- Readily-biodegradable bleaching aides (hydrogen peroxide)

Reduce Linen Replacement Cost and Extend Linen Life

Clothesline Fresh products with fabric protectant reduce fibrillation (fiber damage), pilling, and color fading, delivering results that you can see and feel. The conditioners keep fibers ordered and smooth, leaving linens looking newer longer.

Laundry Washing Procedures

1 SORT
Sort linens by fabric type and color.

2 TREAT
Treat spots, stains and heavily soiled areas.

3 WASH
Select correct washer and dispenser program using the chart below.

Read and follow linen care directions.

4 DRY
After washing is complete, select correct drying time and temperature. Do not over dry.

5 FOLD
Fold linens soon after drying.

ITEM TYPE			NUMBER OF ITEMS BY WASHING MACHINE SIZE							NUMBER OF ITEMS BY DRYER SIZE

Convenient Packaging

Never run out of product unexpectedly again! With Spartan's translucent packaging, the amount of product remaining is easy to see. This will allow you to reorder with ease and always have the right amount of product on-hand. All of Spartan's Clothesline Fresh products are packaged in 5-gallon pails with an innovative closure that allows for the insertion of dispenser tubing right into the pail. This is safer, less time-consuming, and reduces the chance of product contamination. Spartan also offers identification tags to place on dispenser lines for each Clothesline Fresh product for easy identification. We offer many dispensing options to keep the laundry area clean and safe for employees.
